SUPPORT AT-RISK YOUTH

By selecting *HarborPoint* at Root you are also helping to further Root's mission. Space rental and catering revenues directly support our workforce employment programs for at-risk youth in Essex County.

Root helps young people ages 16-24 ("Program Partners") transform their lives and futures through technical and experiential education in the culinary arts - leading to employment and financial self-sufficiency. A 12-week, 200-hour program of classroom and kitchen training builds direct culinary and hospitality skills through learning and practice in a professional environment. With 40 or more hours of hands-on training in internships with local restaurants, caterers and food service businesses Root helps fulfill an identified need in the hospitality industry for new professionals.

Throughout the program, instructors and mentors impart leadership, teamwork, and professional preparation skills that help our Program Partners develop a sense of accomplishment that boosts their self esteem and work-readiness. Young people who complete the Root program emerge Serv-Safe certified and job-ready to compete and excel in the hospitality industry.
